The Indiana Generaceable In his speech at Twee Section ex-Covern-of Forter retterated his absolute withdraw-

protection of the Ame of Attention produced We believe of Assertions greateness and vertices of the series of the libraries of agriculture by furnishing a bone market for the products of the tarm, and thus emanchating our farmers from the products of the tarm, and thus emanchating our farmers from the paywhere has been confronted bow with a Frentsry surplus. Our position is employed to remove the products of the series of the serie

the convenient administration of our public affairs throughout the country in order that the throughout the country in order that the throughout he surplus may be used for a sinister purpose I believe that in reducing our revenues to the level of our necedful and proper expenditures we can and should continue to favor and protective our interests. I do not like to trust this work to those who declars protective duties to be ylciour, 'legalized robbery'. The Republican party has, by its legalicitor, shown her apacity wisely to reduce our revenues and at the same time to preserve the American system. It can be serve the American system It can be trusted to do the work that remains and to do I wisely

The English Candidate.

Mr. Blaine has been studying English southment regarding the coming election in this puntry, and east "It is one sa, but the English candidate can t be before shown their hands too plainly

York branch of the American Protective lasit League who has been a personal friend of General Harrison for about He is on his way to New York from as ex tended tour of the Western States, in the course of which he has paid particular attention to the development of the tariff its te in Minuscots and Wisconsin ' How did you find the people of these

States upon the usue f" he was asked I have found everything in a most hopeful condition, 'he rephed 'in Minnesots the Republican parts has a foothold that is to me surprising Mannesota will give Harrston as large a majority a Slaine received to Wareonsia the dition. The firepression of the execution of his after will give to the littpeblicae porty and strengthened position.

The Wool Question.

Hon Edward H Anddown rupiles as follows to so article in the Gorne "The view of the Germanians, De-

is very extros. The breaks of the west tariff are not limited to the wool grower livery farmer, including the whole 7,000, 000 or ca organized in farming is be by the diversion of labor and empiral lute houp, dax and put.

" the buselft accrues also to the whole po; vistion of the country in the propo the which the value of the wool allo contributes to the wealth and spendable tume of the people. For if sheep has bandry were destroyed the income from it same as a does on every other important protected industry it is part of a grand sy-tem for the elevation and advance insited to any class or ecotion. They exsystem and you weaken the who he destroction begins it will end to the everthrow of all our industries, and in the organization of our labor and wages on the level of our lawiga orangethers
